Agricultural.
At the present moment when the subject of agriculture is occupying so much attention in this Colony, and when we are encouraging the idea of Confederation with the Dominion of Canada, chiefly with the view of drawing immigration thence over the proposed new route, it would not be out of place to enter into some particulars as to the state and prospects of agriculture in British Columbia as compared with Canada and Oregon, and to count up what advantages we have to offer in this respect to intending settlers, that might reasonably induce them to choose this Colony in preference to other localities. It will be admitted on all hands that the climate, both of the mainland and Vancouver Island, is unrivalled; and is much more healthy and equable, i. e. not subject to the variation of intense heat and cold incident to Canada, nor to the sultry fever and ague atmosphere of the Columbia river. Our climate is moreover very suitable to the growth and harvesting of cereals; stock are enabled to stay out the whole winter, not only without detriment, but in almost every instance with advantage, one winter only in seven being severe enough to require the partial feeding of stock from February to March. But it is chiefly to the growth of cereals that we must look with confidence for the prosperity of the agriculturist in this Colony. In Canada the value of a bushel of wheat is \$1.25, the cost of raising it about 50 cents a bushel, whilst flour is worth \$6 a barrel. In Oregon wheat is now worth 70 cents a bushel, the cost of raising it, is 60 cents a bushel, and flour is worth \$6 a barrel. In Vancouver Island, wheat is worth at least \$1.50 a bushel, the cost of raising is about 60 cents, and flour commands a steady sale at \$9 to \$10. On the mainland, upper Fraser, wheat is worth \$3.60 a bushel, the cost of raising is about \$1.50, and flour sells at \$18 to \$24 the barrel. For the sake of illustrating the point we desire to establish, we will take the example of the usual sized farm in these parts; viz., 160 acres, and presume it is sown with wheat, and from the above figures calculate the result that would ensue in each country, deducting thence the superior advantages of farming in Vancouver Island or the mainland as against Oregon and Canada.

Table with 5 columns: Acres, Yield per acre, Result, Value at \$1.25 per bushel, Profit.

Acres	Yield per acre	Result	Value at \$1.25 per bushel	Profit.
160	20 bush	3200 bu	\$4000	\$2400
100	30 "	4800 "	\$6000	\$4800
100	30 "	4800 "	\$6000	\$4800
100	30 "	4800 "	\$6000	\$4800
100	30 "	4800 "	\$6000	\$4800

It will be thus apparent from a comparison of the total and profits that a marked superiority exists in favor of farming in Vancouver Island or the mainland, over Canada or Oregon. We may state that the figures used in this statement have been carefully compiled from blue books and other official sources, and will be found at least, in the only particular where a doubt could exist, viz., the cost of raising per bushel, comparatively, if not actually correct. We would earnestly call the attention of the public to these returns, for although it is impossible to state what the actual profits of any farmer would be on 160 acres of wheat, yet it is at once apparent that the profits are far larger in our own Colony than in either Oregon or Canada.

A Public Market.
EDITOR COLONIST.—Among the many wants from which the good City of Victoria at present labors, I know of none so great as that of a Public Weekly Market.
In England, if a farmer has any produce to dispose of, he wends his way on the appointed day to the nearest market, buyer and purchaser are thus brought face to face; prices are discussed and ready sales effected. But mark the difference here; suppose a farmer has a ton of potatoes, a dozen of pigs, 100 bushels of wheat or barley, an orchard of fruit to dispose of, he has to run around the whole country before he can find a sale, while those who are wanting to purchase the self-same articles, have to run from farm to farm in search of them, may be, crossing on their road a dozen times the person who is trying to sell. What wonder then, that merchants import from a foreign country at a high price, (paying the customs duties on them in addition) the very articles that lie rotting in Vancouver Island for want of a purchaser, though superior in quality. I can testify to the fact, that last year the fruit laid and rotted in the neighborhood of Victoria, while the merchant was seeking an inferior article from a foreign locality. Now all this might be cured, and a lasting benefit conferred on the community by the establishment of a proper market, and I venture to recommend this subject to the consideration of those who desire the prosperity of the country, as I could recommend many other subjects, yea, even in preference to Convention, or the almost thread-bare topic of officialdom.

What, to my mind is required, is a suitable building, in a proper locality, capable of being enlarged at any time, in which producers and purchasers could meet once a week to settle prices and offer produce. To this might be attached, under the same roof, an actual daily sale market for fish, meat, vegetables &c., limited in extent at first, but also capable of enlargement as circumstances might require. I trust no one will call me to order with the mention of a market having been once established here and having failed; managed as it was, it never could have succeeded, and it was moreover, only a daily sale market, and the era of farming had not begun. It would of course be necessary, actually to interest every farmer in the Colony in the undertaking. I estimate that \$5000 would cover all necessary expenditure in the first place, this divided into 200 shares of \$25 each would I am certain, be eagerly taken up and prove highly remunerative; given proper and economical management, and I don't think there would be one farmer in Vancouver Island who would not be a shareholder. Farmers would thus see some prospect of ready sales, and not have to make a day's journey to sell a pig. Merchants would be enabled to learn at a moment's notice what was really to be had in the Colony, and would not be driven across the Sound to buy what is actually within arms length; and last, but not least, the community at large would benefit by the increased prosperity of her farmers, and the capital saved to ourselves, which now enriches our neighbours.

Yours,
A LOVER OF PROGRESS.
HOLLOWAY'S OINTMENT.—Sores, wounds, ulcers and other diseases affect the skin, are amenable by this cooling and healing unguent. It has called forth the loudest praise from persons who had suffered for years from bad legs, abscesses, and chronic ulcers, after every hope of cure had long passed away. None but those who have experienced the soothing effect of this Ointment can form an idea of the comfort it bestows, by restraining inflammation and allaying pain. Whenever this Ointment has been once used it has established its own worth, and has again been eagerly sought for, as the easiest and safest remedy for all ulcerous complaints. In neuralgia, rheumatism, and gout, the same application, properly used, gives wonderful relief.

THE KING OF PERFUMES.

THE VICTORIA PERFUMERY is now adopted by the ELITE of the aristocracy and fashionable world on account of the superior articles for the toilet each of which has been made a speciality.

The new perfumes prepared with the ESSENCE of YLANGYLANG extracted by distillation from the UNOXA ODORATISSIMA and imported from the Philippine islands are beyond comparison for their delicacy and sweetness. We therefore recommend the BEAU MONDE to try as a handkerchief perfume.

THE EXTRACT OF YLANGYLANG AND THE MANILLA BOUQUET

Besides these, which are the exclusive property of their house, Messrs RIGAUD and Co prepare in a most approved and superior manner all the fashionable scents, amongst which we may mention the

RIGAUD'S TOLUTINE

Is an admirable toilet-water, the true talisman of beauty, preserving the freshness of the skin and the fairness of the complexion. It is the perfection of science adapted to the toilet, and is incontestably superior to Eau de Cologne, or the most esteemed of vinegars and the Florida water.

THE MIRANDA HAIR-OIL AND POMATUM.

Is a remarkable preparation which may be called a real treasure for the hair. It is composed of tonic and fortifying compound, and it beautifies and preserves the hair at the same time as it imparts to it a most refreshing perfume.

MIRANDA SOAP.

COMPOSED MAINLY OF THE MILK OF THE LETTUCE AND THE LILY.

A simple comparison of this soap with others sold by the perfumery trade, suffices to prove its superiority. It gives the skin a delightful silky surface, it lathers abundantly, forming a real milk-bath, and is all that can be desired as to perfume.

DENTORINE AND TOOTH-PASTE.

THE DENTORINE is a pleasant elixir for the teeth; it perfumes and refreshes the mouth, strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution in this class of toilet necessary, and has done away with powders and opiates that are more or less acid and dangerous. A brush passed over it produces a soft and unctuous masticage that gives the teeth a brilliant whiteness.

THE ROSE POWDER

Preserves the skin from the roughness of the wind and the cold, gives it a soft freshness, and prevents red spots and freckles. It is far superior to rice and starch powders, and it is deliciously perfumed.

Premium Purchasers of Two Articles of RIGAUD & CO., are entitled to receive Gratuitously the

Assault Case—Police Court.

This Court was occupied for several hours yesterday in hearing the cross cases of assault between Howard vs. Tarte, and Tarte vs. Howard. As we have already said, the case sprang out of the recent charge of smuggling made against Howard, which, as reported, was sent to a superior court. In the case of assault, it appears the parties were on the wharf at Esquimalt, at the time of the leaving of the Captain of the ship Phoenix, when Howard said 'good-bye Captain, take care of informers.' These offensive words were decided to have reference to Tarte, who was standing by at the time, and who was accused of having given the information against Howard for smuggling, and finally led to a scuffle. The evidence was very contradictory as to the exact nature of the assault. Howard alleged no blows were struck, and his statement was supported by two respectable witnesses, Mr Stewart and Mr Liddell. Tarte alleged he received two blows in the face, and his statement was sworn to by Col Foster and Mr Wilby, who had a better opportunity of seeing them given, than Messrs Stewart and Liddell.

In summing up, His Lordship thought the aggression lay with Howard, because Tarte was, and is still employed by the Customs, and it was his duty, and the duty of every citizen, to give information of smuggling coming to their knowledge, and thus he could in no wise be regarded in the light of a common informer, which the offensive words of Howard were evidently intended to mean. Tarte, moreover, distinctly swore in his evidence, that he did not first give the information to the Customs Officers, nor did any of his family; that, in fact, he knew nothing about the smuggling until he heard of it from Mr Wyldo. His Worship further regretted the constant squabbles amongst the residents of Esquimalt, who in spite of his advice, kept coming before the Police Court. Both parties in this case had previously been before him on a separate charge of a similar nature, and it showed the existence of a bad spirit in their little town. As Tarte was employed by the Customs, which would render any information he might give that department, right and proper, it was His Worship's duty to support Tarte, and he should therefore fine Howard \$25, or in default of payment, three months imprisonment. The Attorney General appeared for Tarte, and Mr Bishop for Mr Howard.

In connection with this case, the Attorney General stated in court, that he should feel it his duty to follow up all cases where officers or employees of the Customs were interfered with in the performance of their duty, and he was desirous of the publication of the 25th clause of the Consolidated Customs Act, which declares the penalty of such offences. It is as follows: 'If any person shall by force or violence, assault, resist, or obstruct any officer of the army or navy, or marines, being duly employed for the prevention of smuggling, and on full pay, or any officer of Customs, or excise, or other person duly employed for the prevention of smuggling in the due exercise of his or their duty, or any person acting in his or their aid, every person so offending, being convicted thereof, shall be transported for seven years, or sentenced to be imprisoned in any House of Correction or Common Gaol and kept to hard labor, for any term not exceeding three years, at the discretion of the court before which such offenders shall be tried and convicted as aforesaid.'

NANAIMO WESLEYAN CHURCH.—On Sunday last, the Rev. T. Derrick, who was at Nanaimo for a few days en route to Cariboo, preached two eloquent discourses to unusually large congregations. The Presbyterian congregation, with their Pastor, the Rev. R. Jamieson, attended the evening service, as a mark of sympathy and respect for this popular Cariboo missionary. On Monday night a tea meeting was held in the School-room, and afterwards a public gathering in the Church, for the purpose of welcoming the newly-arrived Pastor, the Rev. E. White, and also to hear an address from Mr Derrick. An opening speech from Mr White, to whom a congratulatory welcome was given by Mr C. Bryant, on behalf of the Church, and the Rev. Mr Derrick's speech, rich in oratorical beauty and power, followed by a few appropriate remarks of fraternal greeting by the Rev. R. Jamieson, made it altogether an occasion of intellectual enjoyment and Christian sociality not soon to be forgotten by those who were present.

THE steamer Sir James Douglas returned from Comox, Nanaimo and other way ports yesterday evening. At Comox, as in other districts, the crops are splendid. At Nanaimo, a large surplus of coal is being raised for the ships soon to arrive there, so that their detention will not be so long as is usual. She did not bring much freight down, but she had about twenty passengers, amongst whom were Messrs Trutch, Pearce, Nicol, Jamieson, Sabiston and several ladies. She reports that Capt. Rodey's whaling party left Nanaimo last Wednesday morning. The body of John Holder recently drowned at Comox, was brought down on the Douglas for interment by the Independent Order of Odd Fellows.

DESKTERS.—We have been requested to say it was not on the farm of Mr Williams, the Livery Stable keeper, that the Navy deserters were recently apprehended. As they were in plain clothes, however, no blame could be attached to any farmer hiring them to work.

LADY BARBERS.—The best results we have known from the teaching of the Women's Rights Apostles, appear in the fact that for the future we are to have lady barbers. Six young and fascinating barberesses are about opening a splendid establishment in New York, to be managed by themselves. Think of that ye hireate brutes who do not shave. No more sense of degradation in having one's nose pulled, and having one's neck twisted half out of joint. Then the shampooing by divinities must not be overlooked. The millennium has come at last. Oh Moses! the union of beauty and bristles, loveliness and lather; that's the doctrine by which to redeem the country, and we feel it our duty to support it. The age of beards is gone.—Am. Paper.

THE CHANGE.—Yesterday the lower portions of the town were a different, and a far more respectable aspect, than they have done for a long time. Johnson street especially looked once more as if it belonged to a white community and was occupied by white people. It is to be hoped that now the Indians are got rid of, they will not be allowed to return in the same number as hitherto. This desirable reform is being carried out vigorously, but we are sorry to say, to a certain extent, to the injury of some of the traders.

EARTHENWARE COFFINS.—A man in San Francisco has made for exhibition at the Mechanics' Fair an earthenware coffin, and for which he has taken out a patent. The idea is certainly not original as the patentees states, for something very like it was in practice amongst the Romans. These coffins have the merit, however it is said, of being handsome, light and cheap; but these qualities would not compensate for the inconvenience they would soon cause, in every cemetery where they would be generally used.

THE CHAIN-GANG.—The body of men detailed by the Commissioner of Lands and Works for the thorough cleansing of our streets, have about completed that work and done it well. The improvement in the appearance of the streets speaks for itself; and will, it is to be hoped, inspire a determination to perform some other little works round the city, in which the public have an interest.

ACCIDENT.—A man known as "Dutchy," who lives on Store street, was thrown from a buggy yesterday on Yates street, and had his knee severely hurt. The shying of a young horse caused the accident; considerable damage was done to the vehicle. Dr Powell was called in professionally; the injured man was afterwards sent to the hospital, under care of Dr Dickinson.

THE steamer Enterprise left at 6 o'clock sharp for New Westminster yesterday morning, with 80 tons of freight and between twenty and thirty passengers, including the Delegates to the Yale Convention. The Enterprise will return at an early hour this morning in order to assist in discharging the cargo of the Princess Royal.

THE LAST OF THE MOHICANS.—Yesterday the remainder of the Hydah shanties on the other side of the Bay were destroyed by fire. From the number of Indians leaving for other parts, there has been quite a lively trade in blankets for a few days past. Emigration still continues.

PANDORA STREET WESLEYAN CHURCH.—In consequence of a severe indisposition of the pastor, newly arrived—Rev Mr Ross, the pulpit will be filled on to-morrow by the Rev Mr Somerville. Service will commence at 12:15.

Cariboo Mining Intelligence.

(From the Cariboo Sentinel, Sept. 2.)

WILLIAM CREEK

The low stage of water in all the creeks has put a stop to a great number of the paying claims. The returns, therefore, will foot up far below the average amount for the season. The wash ups for the week were: The Baldhead co. 180 oz; Barker co. 29 oz; Lilloet co. 35 oz; Mosher co. 20 oz; Cariboo co. 53 oz; California co. 10 oz; Tyack co 95 oz.

STOUT GULCH

The Mucho Oro co. 30 oz; Jenkins co. 65 oz; Taftvale co. 145 oz; Alturas co. 50 oz.

CONKIN GULCH

The Reed co. washed up 32 oz.

MOSQUITO CREEK

We failed to get our regular report from this creek, and also from Red gulch. Very little, however, is being done, on account of the scarcity of water. The Minnehaha took out about 200 oz; and the Hocking also had a good wash up. The Hiawatha had for the week 30 oz.

LOWHEE CREEK

The Calavaras co. washed up 60 oz. One other co. getting small pay.

M'ARTHUR GULCH

The Try-again co. and the New Brunswick co. are still getting good pay.

BEGGS GULCH.

Four co's working, but one only is getting pay.

RICH GULCH

Four co's prospecting; no pay yet.

HARD SCRABBLE CREEK.

Hilton & Co. are pushing on with their tunnel, and many eyes are turned in that direction as being a point which will decide the mining value of an extensive country.

GROUSE CREEK

The Bed-rock Flume co. washed up for the week 140 oz. The No'er-do-well co. 92 oz. Gauntlet bottomed their first shaft and found the bed rock pitching. They have commenced a second shaft and are down about 30 feet. The Hard-up are still drifting across the channel, with no new developments. Lud & Co. are getting about an ounce to the hand. Little else is now doing, for want of water.

GAYET RAVINE

The claims are all paying, but much less than usual, on account of the scarcity of water.

ANTLER CREEK

Alex Porter's co. making wages. Two other men below making pay. Murphy's co. making good wages. Harkins co. washed up for the week 104 oz; one piece weighed \$36. The Johnson co. Boyd & co. and the McBride co. are all making good wages.

HORSEFLY CREEK.

Several men prospecting, some making small wages.

CEDAR CREEK.

Lee says the South anxious for peace and peaceful administration of the Government. They long for privileges of selfgovernment. 616 KEARNEY STREET, NEAR
Commercial, San Francisco. Established in
1854, for the treatment of Sexual and Seminal Diseases,
such as Gonorrhea, Gleet, Stricture, Syphilis, in all its
forms, Seminal Weakness, Impotency, etc. Skin Dis-
eases (of years standing) and Ulcerated Legs suc-
cessfully treated.
DR. GIBSON has the pleasure of announcing that he
has returned to this State, after an absence of one year
during which time he visited all the principal Hospitals
of Europe, America, and the East, and has acquired the
highest medical knowledge. The following celebrated Hospitals
among those visited by the Doctor: Guy's, High Street,
Borough; St. Bartholomew's, Smithfield; St. Luke's, Old
Street; St. Mary's, Lamb. Place, Pad.; Lock, Harrow
Road; University, Gower Street; Westminster, Broad
Street; Charing Cross, Agar Street, Strand; London;
Whitcomb Road, Royal Free, Gray's Inn Road; King's
College, Portugal Street.
DR. GIBSON has spared neither time nor money in seek-
ing out new remedies, and has returned with increased
facilities for the alleviation of human suffering.
Horrible Diseases.
How many thousands of persons, both male and female
are there who are suffering out a miserable existence
from the effects of secret indulgence, or from
virus absorbed into the system. Look at their pale
face, emaciated and distorted features, and their broken
down constitutions, disqualifying them from the happi-
ness of marriage or of the enjoyment of life. In this hor-
rible situation thousands suffer until death closes the
scene. Let parents, guardians, friends, attend to those
who are suffering with any of these horrible, life-destroy-
ing maladies—see that they are cured, and cured before it
is too late. Send them immediately to DR. GIBSON, a
physician who has made private diseases his special
study for years, who is certain to cure the most inveterate
cases without mercury or any injurious drugs. It is
impossible to tell the number of cases of venereal disease
in the welfare of their friends, to be careful of the
many pretended Doctors who infest all cities, publishing
their skill in curing all diseases in a few days, imposing
on the public by enclosing \$15 in currency or \$10
from Europe and other places. Be therefore careful, and
make quick inquiry, or you may fall into the hands of
those charlatans.
Seminal Weakness.
Seminal Emissions, the consequence of self-abuse. This
solitary vice, or depraved sexual indulgence, is practised
by the youth of both sexes to an almost unlimited ex-
tent, producing, with unerring certainty, the following
train of morbid symptoms, which are combated by scientific
medical measures, viz.: Salivary countenance, dark spots
under the eyes; pain in the head, ringing in the ears,
noise like the rustling of leaves and rattling of chariots,
scintillations about the eyes, weakness of the limbs, con-
fused vision, blun of intellect, loss of confidence, diffi-
culty in approaching strangers, a dislike to form new ac-
quaintances, a disposition to shun society, loss of memory,
headaches, pimples and various eruptions about the
face, forced turgor, fetid breath, coughs, consumption,
night sweats, morbosity and frequent insanity. If relief
not obtained, should apply immediately, either in per-
son or by letter, and have a cure effected by his new and
scientific mode of treating this disease, which never fails
of effecting a quick and radical cure. Dr. G. will give One
Hundred Dollars to any person who will prove satisfac-
torily to him that he was cured of this complaint by
either of the San Francisco quacks.
MARRIED MEN.
Of those who contemplate marriage, who are suffering
under any of these fearful maladies, should not forget the
sacred responsibility resting upon them not delay to
obtain immediate relief.
DR. GIBSON is responsible, and will give to each patient
a written instrument, binding himself to effect a radical
and permanent cure, or make no charge.
Cured at Home.
Persons at a distance may be CURED AT HOME, by
addressing either to Dr. Gibson at his residence, or by
length of time the disease has continued, and has
medicine promptly forwarded, free from damage and
curiosity, to any part of the country, with full and plain
directions for use. By enclosing \$15 in currency or \$10
in coin, in a registered letter through the post office, or
through Wells Fargo & Co., a package of medicine will be
forwarded by express to any part of the Pacific Coast.
Address Dr. J. P. Gibson, 616 Kearney Street, corner

train of morbid symptoms, which are combated by scientific
medical measures, viz.: Salivary countenance, dark spots
under the eyes; pain in the head, ringing in the ears,
noise like the rustling of leaves and rattling of chariots,
scintillations about the eyes, weakness of the limbs, con-
fused vision, blun of intellect, loss of confidence, diffi-
culty in approaching strangers, a dislike to form new ac-
quaintances, a disposition to shun society, loss of memory,
headaches, pimples and various eruptions about the
face, forced turgor, fetid breath, coughs, consumption,
night sweats, morbosity and frequent insanity. If relief
not obtained, should apply immediately, either in per-
son or by letter, and have a cure effected by his new and
scientific mode of treating this disease, which never fails
of effecting a quick and radical cure. Dr. G. will give One
Hundred Dollars to any person who will prove satisfac-
torily to him that he was cured of this complaint by
either of the San Francisco quacks.
MARRIED MEN.
Of those who contemplate marriage, who are suffering
under any of these fearful maladies, should not forget the
sacred responsibility resting upon them not delay to
obtain immediate relief.
DR. GIBSON is responsible, and will give to each patient
a written instrument, binding himself to effect a radical
and permanent cure, or make no charge.
Cured at Home.
Persons at a distance may be CURED AT HOME, by
addressing either to Dr. Gibson at his residence, or by
length of time the disease has continued, and has
medicine promptly forwarded, free from damage and
curiosity, to any part of the country, with full and plain
directions for use. By enclosing \$15 in currency or \$10
in coin, in a registered letter through the post office, or
through Wells Fargo & Co., a package of medicine will be
forwarded by express to any part of the Pacific Coast.
Address Dr. J. P. Gibson, 616 Kearney Street, corner
Commercial, San Francisco, Post-office box 252.
Remember to put BOX 252 on the letter.
Correspondents will please inform Dr. Gibson that
they read his advertisement in the British Colonist.

Medical.
French Medicines,
PREPARED BY
GRIMAULT & CO.
Chemists to H.I.P. Prince Napoleon,
PARIS.
These different medicines represent the most recent
medical discoveries, founded on the principles of Chem-
istry and Therapeutics. They must not be confounded
with secret or quack medicines, as their names suffi-
ciently indicate their composition; a circumstance which
has caused them to be appreciated and prescribed by the
Faculty in the whole world. They widely differ from
those numerous medicines advertised in the public
papers as able to cure every possible disease, as they are
applicable only to but a very few complaints. The most
stringent laws exist in France with regard to the sale of
medical preparations, and only those which have under-
gone an examination by the Academy of Medicine
and have been proved efficacious, either in the hospitals
or in the practice of the first medical men, are authorised
by the Government. This fact must be a guarantee for
the excellence of Messrs. Grimault et Co.'s Medi-
cines.
